1. The following observations were made at Brand	simple of d heterony 1 and 15 October	
by October. There was a strong wind from the so altitude of about 400 meters, and good visibilities took off at 9 a.m. and landed at 9:40 times over the field. Take-offs were made by a	ity. An UIL-28 plane	25X 25X
at 9:15 a.m. and an IL-28 plane planes landed at 10:25 a.m. in IL-28 plane	at 9:40 a.m. The two	25X 25X
5X1 UIL-28 plane took off at 10	and the an interval	25X
of about 600 meters. The planes landed individual the west. Only individual take-offs and landing	es were made until about	
two groups of 6 and 8 planes were parked on the	p.m., llijet bombers in	
taxiway, the two groups were about 100 meters a	anari.	
6 October. No air activity throughout the day. night. The sky was 5/10 overcast at an altitude clouds were above the cloud ceiling. Shortly af	e of about 200 meters. No	
compers on the dispersal areas were being refue	alled from three tank	
trucks each with a trailer. The refueling of each At 7:50 p.m., two jet bombers took off and made	e local flichts at an	
interval of about 400 meters. The planes landed the landing, the aircraft circled over the airf	l at 8:50 p.m. Before	
ground signal, inis was answered by a red signa	al fired from the cround	
At 9 p.m., three jet bombers took off in rapid over Schoenwalde, one plane fired several short	bursts. A jet bomber	
took off at 10:30 p.m., made three local flight jet bombers took off at 11:15 p.m. Before landi	as and landed at il nome then	
over the field and fired a red signal. Thereupo	n, a green signal was	
fired from the ground, Air activity was discont 8 October. It rained, and there was a strong we	Sterly wind, an almost	
crosen croud base at an artitude of about 150 m	eters and a visibility of	
landed at 8 a.m. A white lamp fitted on the fro	took off at 7:30 a.m. and ont-side of the nose wheel	
strut was switched on. Two IL-28 jet bembers took off at 8:10 a.m., at an interval of about	ut 1,000 meters. They circled	25X
onice times over the fleid, the second plane fl	ying about 100 meters aft of	
CLASSIFICATION S FOR 14		

SECKLT, 25X1 the first plane. Both planes landed at 8:50 a.m. at an interval of about 500 meters. The UIL-28 25X1 and an IL-28 plane took off at 9 a.m. at an interval of 500 meters. The clane: made 25X1 three local flights at an interval of 500 meters and landed at 9:10 a.m. These clames also had a white light at the front-side of the nose wheel strut. Three jet bombers took off at 10:15 a.m. at intervals of 600 meters They landed at 11 a.m. it noon, take-off's wore made by the UIL-28 plane and the IL-28 -lane 25X1 25X1 at an interval of 600 meters. Both planes landed at 12:15 n.m. However, plane did not touch 25X1 ground on the runway but on the grass strip 200 meters south of it. It stopped short before the western taxiway. There, the cabin roof was opened to the left and four men got out of the plane to the right. It was not observed that a man fot out o' the rear gunner's station; The plane was towed by a tractor along the southern tariway to the dispersal area and parked south of the hardstand. At 1 n.m., 11 jet bombers were narked on the dispersal area. 10 October. It rained and there was ground haze, a closed cloud ceiling at altitude of 150 meters, and a visibility of 1.5 km. The UIL-28 plane took off at 0:15 a.m. and landed at 8:15 a.m. IL-20 25X1 25X1 work off at 8:50 a.m. and landed at 9:30 a.m. IL-28 25X1 25X1 25X1 took off at 9:35 a.m. and landed at 10 a.m. IL-28 25X1 tock off at 10:20 a.m. at an interval of 1,000 meters. The clanes circled several times over the field, the second plane flying 50 meters above the first plane. The aircraft landed at 11 a.m. Jet bombers made 16 individual take-offs and landings until 1 p.m. 11 October. It rained. There was ground haze, a closed cloud base at an altitude of about 100 meters and a visibility of 1.5 km. The UIL-28 plane took off at 8:15 a.m. and landed at 8:50 a.m. a white 25X1 hight was again observed on the front-side of the nose wheel strut. In the meantime, five jet bombers were refueled from two tank trucks without trailers. The refueling of each plane took 5 minutes. An IL-28 took off at 8:45 a.m., and landed at 9:30 a.m. Between 8:55 and 25X1 25X1 took off at C:15 a.m. and landed at 10:20 a.m. Between 10:40 and 25X1 25X1 was in the air. No air activity was observed after a.m., the IL-28 25X1 ll a.m. 12 October. No air activity throughout the day. Between 6 and 6:50 p.m., four jet bombers took off and landed individually. According to soldiers, the first flights every day were made by UIL-28 jet bombers making weather observations, 1 In early October, two MCOs of the ground personnel said that the searchlight detail, which was located east of the field near Krausnick, belonged to the with nor Root. The detail was allegedly subordinate to the air unit at the field and was relieved every three months. The same soldiers also stated that they were assigned to excavation work for a rasoline pipeline,3 On 12 October, there was no air activity. After 1 n.m., 70 to 80 soldiers were drilling in groups of 8 to 10 men. The rifles were stacked, and individual training was given including close order drill, On 6 October, night flying was observed. Three white lights were observed under the fuselages of the jet bombers when taking off and landing. They were not noticed during the flight, while the green and red position lights were always
